WASHINGTON, DC 20510

November 6, 2025

President Donald J. Trump
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear President Trump,

We write to congratulate you on your historic success in advancing American prosperity and security on your recent trip to Asia. Thankfully, we have a President who puts America first and protects our greatest assets. Your leadership has ushered America into a Golden Era of relations with our allies and partners in the region and delivered outstanding results for the American people once again.

The agreements that you secured mark a major milestone in ensuring that American farmers, workers, businesses, and innovators reap the benefits of fair and reciprocal trade. For instance, your successful negotiations with Japan and South Korea will bring nearly one trillion dollars of investment into America's economy. And you have brought peace to yet another longstanding conflict, this time between Thailand and Cambodia.

Finally, as you have rightly recognized in the past, Communist China is a dangerous and formidable adversary that has waged economic warfare on American farmers and manufacturers. Additionally, decades of mismanagement by previous administrations have led to entanglement with a regime whose actions have put our national security at risk. We understand the delicate balance you struck during the negotiations was not easy.

Your determination while engaging with Dictator Xi Jinping secured results on fentanyl, agricultural purchases, and critical minerals where others could not. Unlike your predecessors, who may have wavered and given away our greatest leverage, you managed to extract real concessions from Communist China while preserving American dominance. We applaud your foresight and wisdom in continuing to withhold America's most advanced semiconductors from Communist China, which includes NVIDIA's Blackwell. As you have said, America is the country that started the AI race, and this decision will help ensure America wins that race.

Thank you again, Mr. President, for your unwavering dedication to putting America first and your unique ability to achieve outcomes that strengthen our economy, safeguard our technology, and reaffirm U.S. leadership on the global stage.

Sincerely,

Pete Ricketts
